

# KERO WORLD®

## WICK SELECTION CHART

FOR KEROSENE HEATERS

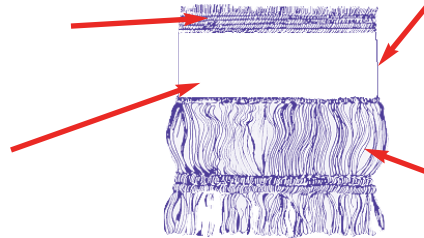

**THE WICKS WITH A DIFFERENCE**

Kero-World® is the #1 selling brand of kerosene heater replacement wicks in the USA. They have been trusted by millions since 1982 to provide safe, dependable heater performance.

Fiberglass burning surface provides high btu output and slows carbon build-up.

Reinforced heavy cloth band for additional strength.

Kero-World wicks are constructed with correct dimensions to fit your heater properly.

High quality cotton bottom provides excellent kerosene absorption which provides high btu output.

### How To Use Your Kero-World Wick Chart:

1. Select your heater brand name from the list inside. (Heater Brands are listed in alphabetical order on the chart.)
2. Select the correct wick number for your heater model.
3. Match the corresponding wick number to the number on the front of the wick package.

**If you can not find the proper wick, accessory or part for your heater, ask your retailer to order it for you.**

While we, at World Marketing of America, Inc., have made every effort to insure accuracy, we assume no responsibility for errors, omissions and/or damages therein caused.
